

INSTALLATION INSTRUCTIONS

Part Number YA-6090

This filter fits: SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Air Filter seals properly.

INSTALLATION:

1. Remove the stock air filter.
2. Carefully clean the inside of the air box.
3. Apply a thin layer of the provided K&N Sealing Grease to the air filter sealing surface. (Fig. 1)
4. Install the K&N Air Filter into the air box making sure it is completely seated.

NOTE: The edge of the K&N Air Filter will be flush with the side of the air box. (Fig. 2)

5. Reinstall the air box lid and tighten screws.

NOTE: The “fingers” in the air box lid push on the K&N Air Filter to complete the seal.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
